WHO WE ARE

Connecting Indian Agriculture to Global Markets

ONION SUPPLY CHAIN · NASHIK, INDIA

Suyada Enterprises is an India-based export business focused on sourcing and supplying quality agricultural commodities to international food manufacturers, wholesalers, distributors and procurement teams.

We work at the intersection of Indian farming communities and global supply requirements — building each offer around the buyer's product specification, volume, packaging and documentation needs.

- Quality-focused sourcing and grading
- Bulk supply for professional procurement
- Export documentation and shipment coordination
- Clear, responsive buyer communication
- Buyer-specific packaging discussions
- Batch documentation shared on confirmation

SPICES · OVERVIEW

Whole or ground to specification

A selected range of spices and commodities for bulk trade. Product details, packaging options and documentation are shared on review.

PACKAGING & DOCUMENTATION

Built around the requirements of professional buyers.

Bulk packaging formats, product documents and applicable export documentation are discussed and confirmed against each individual order.

QUALITY ASSURANCE

Quality and Compliance Come First

We believe accreditation should be verified, not assumed. Certification and compliance details are shared only once confirmed for the relevant product and shipment.

Documentation on request

COA, product data and applicable export documents are provided with quotations once confirmed. Certification logos and accreditation claims are published only after verification.

Batch-level confirmation

Mesh size, moisture content, packaging and documentation are confirmed against the specific batch and buyer requirement.

Responsible sourcing

Our sourcing networks draw on relationships with Indian farming communities, connecting agricultural supply to international demand with care and accountability.
